## PROGRAM

# JOIN US IN CREATING ENTHUSIASM.

By the end of our 9-week program, your child will have covered all the fundamentals of sailing and most water sports as well as a comprehensive knowledge of all water safety and equipment usage.

## PURPOSE

Fresh J.U.I.C.E. is served before breakfast every morning but don't expect a glass of Gatorade or OJ, it's a Jolt of positive energy designed to invigorate your child. We blend fun movements and empowering cheer to get them ready to seize the day happily and proud. When children are happy their minds will be ready to learn and explore.

If Love for water is our mission, then empowering is our purpose. Empowerment is in every fiber of what we do; from the food we eat, to what sports we choose, everything is designed to make campers stronger, happier and more confident. By fostering an environment that promotes self-discovery and growth our campers will not only have amazing experiences, but they will learn skills they will never forget.

## HEALTHY NUTRITION

We take nutrition very seriously. We only want the best of the best for our kids. As discerning parents and wellness advocates we believe in feeding our children 100% NATURAL food. Our menu is carefully crafted so your children have the energy and nutrition needed for their daily adventures. It all starts and ends with food.
