Give Us 5: We deserve a fully functional National Labor Relations Board

The NLRB is the only agency that enforces workplace rights for more than 80 million employed in the private sector.

Now, because of those in the Senate who insist on blocking nominations and preventing an up-or-down vote on them, we may lose a fully functioning NLRB with five members.

The Senate majority can't allow this to happen.

Help Protect 80 Million Workers!

Call your Senator and tell them to vote to confirm the five NLRB nominees and to vote for a rules change if the nominees are blocked.

CALL 1-888-966-9824 and tell them:

- We deserve a fully functional NLRB with five members.
- If the nominees are blocked, I urge you to vote for rules change to allow for an up-or-down vote

TEXT "NLRB" to "69866" to join the fight!
